## A visionary entrepreneur who is taking his education & healthcare group places

When it comes to quality school education in the state, the Vikash Group of Institutions has made a name for itself in the last two decades. And behind its success is D Murali Krishna, the founder-chairman of the group, who aims to serve the people of Odisha by providing quality education and health services. The group also runs a 150-bed multi-specialty hospital in Bargarh district since 2016 that offers a plethora of quality health services, including bypass surgery, cardiac intensive surgery, neonatal care, critical care, onco-surgery, urology, total knee replacement and advanced laparoscopic surgeries.

Like almost every successful person, Krishna had his share of struggle in the initial days but

he managed to overcome every hurdle. He believes that the Vikash Group of Institutions has developed a culture that has stemmed from social need. Everyone associated with the group is committed to the set standards in terms of providing quality service and earning people's trust.

"Despite being affected by the pandemic, I have tried to stand by each and every member of my team by introducing micro-mechanisms to mitigate the challenges. One such micro-management was to mobilise

human resources from the education to the health sector, as the hospital segment needed more manpower during that time. The group also developed two portals — Vidya and Vlearning — for online academic programmes for more than 15,000 students from KG to PG level," Krishna said.

Krishna also took up the challenge to set up a 100-bed hospital in April 2020 and was able to set up the Covid hospital within 15 days. His team also managed the hospital with a low mortality rate.

Seeing their commitment to serve, his group was given the responsibility to manage the Covid hospital at Sambalpur and Deogarh by the state government. For him the words of gratitude from the survivors at these hospitals are priceless and form the driving force that pushes him to continue serving people.

Staying positive and honest has always been his mantra of leadership and success. The ever-ambitious social entrepreneur never stops at this and aims for bigger things like opening a university in future. Another dream of his is to open a medical college. He also aims to provide affordable and quality school education in all the districts of Odisha.
